10 POP PERENNIAL HERBS & THE POLLINATORS THEY ATTRACT

Looking to support a range of pollinators in your orchard, backyard garden, or ecosystem? Check out this guide to 5 common orchard trees and the species they attract regionally, based on the work of Doug Tallamy's 'Bringing Nature Home.'

NOTE: The data below represents only butterflies and moths; some plants listed are much better at attracting bees and other pollinators!

**STRAWBERRY**
(Fragaria vesca)

77 species of butterflies and moths use strawberry as a caterpillar host plant

Zone 7A/7B Bloom Time: May-July

Left to right: Northern Grizzled Skipper (Pyrgus centaureae), Isabella Tiger Moth (Pyrrharctia isabella), Crocus Geometer (Xanthotype sospeta)

**GOLDEN ROD**
(Solidago spp.)

126 species of butterflies and moths use goldenrod as a caterpillar host plant

Zone 7A/7B Bloom Time: July-October

Left to right: Helvibotys helvialis (Helvibotys helvialis), Green Owlet (Leuconycta diphteroides), Asteroid Moth (Cucillia asteroides)

**JOE PYE WEED**
(Eutrochium purpureum)

35 species of butterflies and moths use joe pye weed as a caterpillar host plant

Zone 7A/7B Bloom Time: July-September

Left to right: Eyed Dysodia Moth (Dysodia oculatana), Boneset Borer Moth (Carmenta pyralidiformis), Clymene Moth (Haploa clymene)

**WILD INDIGO**
(Baptisia australis)

20 species of butterflies and moths use wild indigo as a caterpillar host plant

Zone 7A/7B Bloom Time: July-August

Left to right: Jaguar Flower Moth (Schinia jauarina), Hoary Edge Butterfly (Achalarus lyciades), Tiger Moth (Sitochoa dasconalis)

**BROWN EYED SUSAN**
(Rudbeckia triloba)

75 species of butterflies and moths use brown-eyed susan as a caterpillar host plant

Zone 7A/7B Bloom Time: July-October

Left to right: Silvery Checkerspot Chlosyne (Chlosyne nycteis), Gray Blotched Epiblema (Epiblema carolinana), Meadow Rue Borer (Papaipema unimoda)

YARROW
(Achillea millefolium)

16 species of butterflies and moths use yarrow as a caterpillar host plant

Zone 7A/7B Bloom Time: June-August

Left to right: Wavy-Lined Emerald (Synchlora aerata), Smeathmann’s Aethes Moth (Aethes smeathmanniana), Olive Groundcat (Lacinipolia olivacea)

BEE BALM
(Monarda spp.)

11 species of butterflies and moths use bee balm as a caterpillar host plant

Zone 7A/7B Bloom Time: June-September

Left to right: Raspberry Pyrausta (Pyrausta signatalis), Orange Mint Moth (Pyrausta orphisalis), Grey Marvel (Anterastria teratophora)

COREOPSIS
(Coreopsis lanceolata)

5 species of butterflies and moths use coreopsis as a caterpillar host plant

Zone 7A/7B Bloom Time: June-September

Left to right: Sunflower Bud Moth (Suleima helianthana), Dimorphic Gray (Tornos scolopacinarius), Common Tan Wave (Pleuroprucha insulsaria)

BLAZING STAR
(Liatris spicata)

4 species of butterflies and moths use blazing star as a caterpillar host plant

Zone 7A/7B Bloom Time: September

Left to right: Wavy-Lined Emerald (Synchlora aerata), no common name (Carmenta anthracipennis), Three-Lined Flower Moth (Schinia trifascia)

ANISE HYSSOP
(Agastache foeniculum)

3 species of butterflies and moths use anise hyssop as a caterpillar host plant

Zone 7A/7B Bloom Time: July - September

Left to right: Splendid Brass Looper (Diachrysia balluca), Radcliffe’s Dagger Moth (Acronicta radcliffei), Summer Azure (Celastrina neglecta)
